

Instructions for Student

Before your Prospectus Meeting

- Fill in the top half of the Evaluation Form on your computer and print (including this instruction page).
- If you need to complete by hand, make sure to *write legibly!*
- Fill in all applicable committee members. (A supervisor, plus co-supervisor and/or reader.)
Note: You should have already notified the department of your full committee. If you haven't done so, or if there have been any changes or additions, notify the department *immediately (before the meeting!)* to verify your committee meets departmental requirements.
- 'Proposed Thesis Title' can be a tentative, working title.

Bring the form to your Prospectus Meeting, and give to your Supervisor (including this instruction page).

After your Prospectus Meeting

- *Immediately return the completed form to the Undergraduate Office (UGO).*
- If your Supervisor prefers to submit it, check with the UGO to verify it was received.
- Be sure to follow instructions on form, based on your evaluation.

Instructions for Committee

At the end of the Prospectus meeting, please decide between the following options:

- **'Prospectus approved without qualification'** if the proposal as described in the Prospectus represents a complete and satisfactory plan for the thesis: the student is not required to change or amend the prospectus, or hold another meeting. *Note: This is very rare; most prospectuses do require some kind of modification or amendment.*
- **'Prospectus provisionally approved'** if the Prospectus requires some changes or amendments, but no further meeting is required. Please specify whether a revised prospectus or amendment is required, as well as a deadline for completion. *Note: Committee approval of final document is required.*
- **'Prospectus not approved in present form'** if the Prospectus requires significant changes or additions, and another meeting is necessary to evaluate the updated Prospectus. Please specify a deadline for the student to make these changes and schedule a follow-up meeting (no later than 2 weeks after the primary meeting deadline) to discuss and evaluate the new Prospectus. *Note: A second form should be completed at this meeting and submitted to the Undergraduate Office.*
- **'Thesis proposal disapproved'** if the Prospectus is not satisfactory, and you determine that there are no feasible additions or changes that would produce a satisfactory thesis project. In this case, the Student and Supervisor should immediately consult with the Undergraduate Office.

Please indicate your decision on the form, fill in any required information, and sign. Immediately return to student or Undergraduate Office.
