DAHABEAH, "BEDUIN"

EGYPT.

March 4/1902

My dear Mr Lyons

I have been
furl'd and ready to sail on
row since I am not to
mention that my mind has
been "made up" of a set-
aw going. And that arch
enemy of all down going
dahabeahs - the wind - has
resen on his might and
come out from his March
home. The North. So here
I am seeing signs of
falling wind, which never

Come True - an early lesson
of Latin references! I have
your Scarabs from Murch
and shall carry them to
Newport and hold them
until I hear from you
that you have reached
home. I am having packed
and sent you as you
direct in yours of the 27th
ult^o:

2 Coffins - Man & woman
which came from same
tomb and ought not to
be separated - even in death -
Mr Newberry will give me
a statement of all details on

respect to them, which I
will send to Cambridge.

Ostraca from my dig Valley of
Imbs of Kings:

1 King's head - trial piece

1 Cartouch

1 Hawk
head and parts of
European jar

From Palace of Amenhotep I.

Culinary and Sode wall
plaster painted

The above already contributed
by Messrs Fyter and Newberry
all of which will reach
Cambridge about July

You will be sorry to hear that
my Valley Tomb proved to be
an 18th dynasty one, reoccupied
by man & woman of 22^d dynasty
(same date as your coffin) - they
were originally buried in double
beautiful coffins - outer and
inner ones. The pair of
a thousand or three had gotten
in and everything went to
hell. When we touched them
we found one small head -
I wish telling us that the
Man was spoken of three
of Amen. named Men in
Konsu - The canopic
jars were of 18th dynasty
belonging to the first burial
their heads are perfect but

the bodies ~~was~~ went to
 I much when we touched
 them - I am sending you
 the head & patched body of
 one. It's too long to tell, but
 we are quite well satisfied
 that Holman H - will be
 found on the side of M^r
 about 150 feet from this
 tomb. It has been reserved
 for me & work will be commenced
 next Oct. I have now
 transferred my work to the

Supposed to call on of
Royal Smith next to
Amenholep 2. and
shall continue the work
until Isaac - April 7

I suppose that I must be
true that all good things
come to those who dig
long and deep enough,
in any event. I am having
great pleasure, and
doing some good in showing
where there are no
tombs! The next is

dearly and to an extent
admirable of a Junior
Jail. Therefore with
tender regards to
Mr & Mrs and you

Always most truly
Thomson
